

**House of Good People
Association of Citizens**

Fairytale of Aging is no bedtime story.

The project we have named so is a model of an authentic center that will cherish the culture of aging and lost system of values as a foundation of every healthy society.

Such places and centers do not exist at the moment, and their existence is of national interest on a micro plan in the community. By realizing this program of support to the individuals, we are making a step further to accomplishing long-term goals of national significance.

Fairytale of Aging is an awakening. It represents an awakening and grasping the beauty of life.

Invitation Letter to Good People – donators

TOGETHER LETS BUILD A HOUSE OF GOOD PEOPLE

Humane, creative and socially responsible individuals gathered around the Association “House of Good People” started a project of building a facility that will represent an installation of our past good experiences, knowledge, but also future ideas, with an aim to create a recognizable place open to everyone who wish to be creative, solidary and good-hearted, as well as to those who need help and support in everyday life.

We are initiating the call to all contributors who wish to take part in the realization of this idea by helping the building of “House of Good People” and who can forward this call to those who can offer aid.

We want to believe that together we can better the community we live in and that in the long-term it would become a better place for all of us. We would like to send a message to all generations that we are not indifferent to everyday life in which there are more poor, alienated and lonely people with no support, without an idea how to make their lives better and easier, more creative and humane. Our plan is to have the “House” open to visitors by the end of the year, and to host programs in continuity that would be free of charge for our citizens.

Good ideas cannot be realized without good people. We believe that this information will be a sufficient inspiration to help the realization of this project.

Every donation, as usual, will be transparent and purposefully used. The project speaks.
